AVPRO EDGE AC-EX70-UHD-ARC

HDMI Ultra Slim 4K HDBaseT extender set with Audio Return Channel, 4K60 4:2:0, 4K30 4:4:4, extend HDMI up to 70 meters over CAT-5/6 cable, includes transmitter and receiver units, 48 VDC power adapter.

Dimensions

Height: 0.0000
 Width: 0.0000
 Depth: 0.0000

Located In

#

1st Floor: Family Room: Remote EQ Location

1

The AC-EX70-UHD-ARC consists of a transmitter and receiver that connect via single 6a/7 UTP/STP. Connecting an HDMI signal to the transmitter allows for sending HDMI signals up to 70 meters at 1080p and up to 40 meters at 4K60 4:2:0, 4K30 4:4:4. This AVPro Edge audio video extender is the most cost-effective, state of the art, and reliable single CAT 70-meter extender on the market today. It solves commercial and residential market problems for distributing high-value 4K UHD content from rack to display with the additional ability to send an audio signal bi-directionally through HDMI's Audio Return Channel (ARC).

AVPro Edge uses HDBaseT technology to send 4K signals long distances to deliver video anywhere in your installation and send the local audio signal back to your rack with the ARC feature.

WATTBOX WB-300-IP-3

IP controllable 3 outlet (3 controlled) compact power conditioner with auto reboot, 12A Rating.

Dimensions

Height: 1.7500
 Width: 6.5000
 Depth: 7.6250

Located In	#
1st Floor: Family Room	1

If you're tired of rolling a truck every time you need to reset a cable box, modem, router or other network device, the WattBox® IP+ Controllable 3-Outlet (3 Controlled) Compact Power Conditioner with Auto Reboot is the solution. The successor to our WB-200-IPCE-3 model now offering full control of all 3 outlets, it provides premium surge protection and noise filtration, and is smart enough to automatically reboot the device when network connectivity is lost. Add remote access, scheduling and email – and you can say goodbye to unnecessary service calls. Plus with OvrC enablement, you get remote access, remote firmware updates, real-time monitoring, and customer management all from your phone, computer, or tablet. It may sound "too good," but it's true

WIREFATH WP-ONE-DOOR-20

ONE Enclosure Door 20 in.

Dimensions

Height: 21.9600
 Width: 17.9100
 Depth: 2.9400

Located In	#
Equipment Head Ends: Voice/Video/Data Head End	1

Wirepath ONE™ Enclosure Doors have been designed to simplify and organize structured wiring solutions in response to the ever-increasing need for more technology in our homes. While electronics have become more advanced, the hub for housing them hasn't - until now. These innovative doors mount directly to the wall and provide approximately 3 inches of extra room for equipment. We've also included a mounting platform with our 14, 20 & 28 inch doors and two platforms with the 40 inch. These platforms have the capability of providing two different orientations between the platform and the door. You can use 'em to add equipment, separate equipment, section off areas of the installation so things don't get touched that shouldn't be (cable & satellite), or just to organize your wires. Plus, if needed, you can add a Wirepath ONE™ Shelf to the platform for even more organization. They're everything enclosure doors should be. Wirepath ONE™ - welcome to the future of structured wiring.
